DEPARTMENT OF COMMUNITY NUTRITION
FACULTY OF HUMAN ECOLOGY
IPB UNIVERSITY
2023

@gizi_ipb

WHY SHOULD I APPLY?

One of the pioneers of the development of nutrition science in Indonesia.

It is well known for its expertise in the applications of nutritional sciences for individual (human nutrition) and families/communities (community nutrition) by relating agriculture, food, nutrition, and health for improvement of human quality.

The Department experts in four aspects of nutrition, namely:

- (1) Basic Nutrition;
- (2) Applied Nutrition;
- (3) Management of Food and Environmental Health; and
- (4) Policies on Food and Nutrition.

The summer course will provide a comprehensive overview on maternal and child nutrition program in Indonesia. Participants will experience how community health services are held in Indonesia.

The Department of Community Nutrition IPB, Faculty of Human Ecology, IPB University and Directorate of International Program IPB University will host international experts in the field of maternal and child nutrition program from Indonesia, Malaysia, Thailand, and Japan.

COURSE STRUCTURE

A case-based learning system is used in this course which comprises of various method of delivery such as interactive lectures, discussion, field visit, group work, and presentation. The topics that will be covered in this summer course includes the following:
